

RUTLAND™ INK STANDARD COLORS FOR SCREEN PRINTING INK

Ready-for-Use Colors

Rutland™ EH and EL are non-phthalate ready-for-use color inks comprised of 17 brilliant colors. The inks are available in two series: EH high opacity and EL low bleed.

M3 Color Mixing System

The Rutland M3 non-phthalate finished ink color mixing system is a collection of Pantone®-listed colors used to create custom formulations. This versatile ink-mixing system is ideal for color matching and new color development.

C3 Color Boosting Mixing System

The Rutland non-phthalate color booster mixing system consists of single pigment color concentrates developed as a means of enhancing finished ink mixing primaries to offer a darker, more saturated color.

USING THIS CHART

This color selection chart is a tool to assist in selecting the proper screen printing ink for specific applications. This chart represents a small fraction of the colors available. If these depicted are not an exact match for your requirements, Avient color experts can use your color preference and materials involved to suggest an appropriate pigment for your specific applications.

Note: Black and White inks are not included.
