Zodiac™ Aquarius™ Waterbased Inks for Textile Printing

PRODUCT DESCRIPTION

Zodiac™ Aquarius™ waterbased inks have been developed to meet the sustainability demands of the consumer without compromising the performance and durability demands expected by the printer.

SOFT BASE INK

Zodiac Aquarius™ soft base inks are designed for printing on white or light-colored garments without affecting the fabric hand feel. The ink is ready-to-use and is formulated to prevent drying on the screen, even on 320-mesh count. Aquarius™ soft base inks are well-suited for use by printers new to waterbased ink.

HIGH SOLIDS INK

Zodiac Aquarius™ high solids ink were developed to meet the performance and durability requirements of sport brands. The high solids ink range consists of high opacity white and a soft, flexible base to produce highly opaque, soft hand prints. Use this over the top of Zodiac Aquarius™ Migration Stop on polyester and poly blends.

DISCHARGE INK

The Zodiac Aquarius™ range of bright discharge inks allow printers to achieve bright whites and colors. They are offered in ZFS (formaldehyde-containing) ranges.

SPECIAL EFFECTS

Ready-to-use waterbased special effects are designed to enhance prints and differentiate designs. This extensive range of products includes reflective, pearlescent, metallics, brittle, high-gloss, glow-in-the-dark and suede to bring prints to life.

HIGH MESH INK

These inks are formulated to achieve fine, tonal detail, and bright color. The high mesh opaque and base inks are easy to use with the wet-on-wet printing technique without drying on the mesh. Excellent crock and durability performance.

REGULATORY SUPPORT

The Zodiac™ Restricted Substance List was designed to help ensure compliance with industry standards and is available for review when specific compliances are required.

PHOENIX FLIGHT

The phoenix represents humanity's uncanny ability to rise from the ashes of defeat and the cyclical nature of life as we know it. This design was created to showcase the robust quality of the Zodiac Aquarius High Solids range, focusing specifically on the bleed blocking capabilities of Zodiac Aquarius Migration Stop on polyester garments.

SEASONS CHANGE – FALL

Fall has been referred to as the second spring of the year, as leaves changing color are akin to flowers blooming. This design was inspired by the beauty of Autumn and weaves in the dual worlds of digital hybrid inks: screen printing ink and direct-to-garment ink.

Zodiac™ Libra™ Silicone Inks for Textile Printing

PRODUCT DESCRIPTION

Zodiac™ Libra™ silicone inks have been developed to meet the sustainability requirements of the consumer while providing the desired high stretch and soft feel expected by brand owners and the printer.

BASES & ADDITIVES

Zodiac Libra translucent, clear, matte and barrier bases are used in combination with additives designed to achieve soft hand, high stretch and other specific performance requirements. These bases and additives have been formulated to minimize bleed on fabrics that are prone to dye migration.

READY-FOR-USE INKS

Black and White ready-for-use (RFU) inks designed for direct application, providing great stretch and flexibility.

PIGMENT CONCENTRATES

When printers need to meet specific color-matching criteria, concentrated Libra silicone color pigments are compatible with IMS 3.0 color matching formulas to provide a complete array of color choices.

SPECIAL EFFECT INKS

Libra silicone special effect inks are designed to enhance prints and differentiate designs. The extensive range of ready-to-use ink brings prints to life through the use of metallic, high density (HD) gel, and crystal clear gel coat, adhesive gel, among others.

REGULATORY SUPPORT

The Zodiac™ Restricted Substance List was designed to help ensure compliance with industry standards and is available for review when specific compliances are required.

GLOBAL REACH

Printers using Libra inks have access to a global manufacturing footprint and a vast distribution presence that enables them to service customers despite their location.

SCALES OF JUSTICE

The scales of justice represent balance, just as Zodiac Libra silicone inks strike a balance between strength and flexibility. This balance truly represents the duality exhibited by scales.

THE SUN

The sun symbolizes essence, uniqueness and sense of self. Zodiac Libra silicone inks are defined by their stretch and recovery properties. Just as the sun salutation practice enhances flexibility in yoga, the recovery characteristic of Zodiac Libra inks give them their unique essence.

THE CHARIOT

The Chariot demonstrates duality, or a connection of opposites. Overcoming obstacles by the will to persevere and the commitment to succeed, the chariot endures. Zodiac Libra silicone inks play upon the duality of properties and the sheer strength exemplified by the chariot.

Zodiac™ Taurus™ Non-PVC Plastisol Inks for Textile Printing

PRODUCT DESCRIPTION

Zodiac™ Taurus™ non-PVC plastisol inks have been formulated to meet the sustainability requirements of the consumer while providing the durability and feel expected by brand owners and printers. This ink system is comprised of a combination of bases, additives, ready-for-use (RFU) and specialty inks that provide customers with non-PVC solutions that also afford the convenience and printability of traditional PVC plastisol ink systems.

BASES

Zodiac Taurus bases enhance performance, offering barriers and improved durability. The RFU barrier black ink can be used as an underlay for polyester, blends and digital sublimation fabrics. Stretch base inks increase flexibility when printed onto fabrics with inherent stretch, and the low crock base improves crock resistance.

INK MODIFIERS & ADDITIVES

Use bond, viscosity or rheology additives, such as thickeners, thinners and matte additives to improve abrasion resistance and toughness of ink film, and effect additives to achieve textured suede or high density (3D) effect.

READY-FOR-USE INK

Discover a palette of 14 RFU mixing color inks, including fluorescents and silver and gold metallics. The cotton and low bleed white inks are available in standard and high opacity versions, are designed to be used as stand-alone white inks or in combination with the RFU mixing colors.

SPECIALTY INKS

Achieve special effects and textures with Zodiac Taurus specialty inks. These inks add dimension and dazzling impact to any flat print.

REGULATORY SUPPORT

The Zodiac™ Restricted Substance List was designed to help ensure compliance with industry standards and is available for review when specific compliances are required.

GLOBAL REACH

Printers using Taurus inks have access to a global manufacturing footprint and a vast distribution presence that enables them to service customers despite their location.

IGNITING TAURUS

Though the Taurus bull does not like change, printers using Zodiac Taurus non-PVC inks will find transitioning from plastisol inks pretty straightforward. Igniting the passion in screen printers, Zodiac Taurus Igniting Bull stampedes here to inspire!
