

## MagnaTrans™ Wetting Agent

### Wetting Agent for MagnaTrans™ Transfer Inks

**MagnaTrans Wetting Agent** is compatible with all MagnaTrans inks.

**MagnaTrans Wetting Agent** improves the flow of MagnaTrans inks on the film during printing. It also helps to reduce 'cratering' or 'pin-holing' in prints.

#### Application

Maximum addition, 1% in MagnaTrans inks. Mix well and cure in accordance with instructions for the relevant ink.

MagnaTrans Wetting Agent is not for use with MagnaTrans Adhesive 60.

#### SPECIFICATION

##### STORAGE

In cool place properly closed:  
>5°C (40°F) <25°C (77°F)

##### HEALTH & SAFETY

MSDS available upon request

##### CLEAN UP

Wash off screen using water and mild detergent

Avient makes no representations, guarantees, or warranties of any kind with respect to the information contained in this document about its accuracy, suitability for particular applications, or the results obtained or obtainable using the information. Some of the information arises from laboratory work with small-scale equipment which may not provide a reliable indication of performance or properties obtained or obtainable on larger-scale equipment. Values reported as "typical" or stated without a range do not state minimum or maximum properties; consult your sales representative for property ranges and min/max specifications. Processing conditions can cause material properties to shift from the values stated in the information. Avient makes no warranties or guarantees respecting suitability of either Avient's products or the information for your process or end-use application. You have the responsibility to conduct full-scale end-product performance testing to determine suitability in your application, and you assume all risk and liability arising from your use of the information and/or use or handling of any product. AVIENT MAKES NO WARRANTIES, EXPRESS OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE, either with respect to the information or products reflected by the information. This literature shall NOT operate as permission, recommendation, or inducement to practice any patented invention without permission of the patent owner.
